DELAWARE

THE Town of Delaware is situated in Raagas territory, on the south side of the Missouri river, three miles above the line of the
Delaware reserve, and ten miles below Leavenworth city. This town was laid off and located
in February last, on a tract of land densely timbered, easy of access from the surrounding
country and situated favorably for health: already there are a number of houses going up.
It has the following resources as a good and
prominent point:

Firstly—A Good Landing.

The Missouri river at this point is compressed within a narrow space, the changel is remarkably deep on the Delaware side, and washes for a mile above and below, the Kansas shore, thus affording at all times a safe and secure landing for steamers.

Thirdly—Its Position.

Thirdly—Its Position.

This town has on the Kansas side of the river supporting it, a large district of the very beginned in the Territory, while on the opposite side of the river there is a large and fertile bettom, teeming with population. This botton is of itself sufficient to sustain a town of large.

This is the most accessible point free of itself sufficient to sustain a town of large size. This is the most accessible point from which the Delaware nation of Indians can procure their supplies. Delaware is the nearest and most accessible point at which the country on the Kansas river can do their receiving and forwarding business. There are a great number of towns on the Kansas that will find it to their interest to make this place their shipping point, among them we would name Osawke. point, among them we would name Osawkee Calhoun and others. As there is a good fer at this point, emigrants traveling to Kansas Ter-ritory on the great State road from St. Joseph to St. Louis, will find that this is the proper point at which to enter the territory, as by the

means they avoid a great deal of un

Health. This location is high and commanding, having no stagnant water near to generate diseas-from its streets, there is presented to the eye from its streets, there is presented to the eye a spendid view of the Missouri river for miles above and below the town, the country in the vicinity presenting a view at once pleasing and

romantic.

Every inducement will be given to mechanics to make Delaware the place of their choice. We ask each person to examine the place. The merchant will find on an examination, that Delaware is obliged to command a trade not second to any town in the Territory; from such persons we ask an examination. ersons we ask an examination rd we ask for Delaware an examination by
